

A professional portrait of Dr. Sheri McIntosh, a woman with long, wavy reddish-brown hair, smiling warmly. She is wearing a black button-down shirt and a necklace with dark beads and a silver pendant. The background is a rustic stone wall.

Sheri McIntosh, DDS

[DISTINGUISHED DENTAL]

Specialty | Dr. McIntosh provides exceptional, personalized cosmetic and family dentistry from her patient-oriented, state-of-the-art practice in the Keller area. With a focus on a great patient experience in a welcoming environment, Dr. McIntosh offers comprehensive services from preventative care to smile makeovers. She is also certified in nitrous and conscious sedation for patients who prefer to be sedated during treatment.

Important Qualities of the Doctor-Patient Relationship | Dr. McIntosh's practice philosophy is to provide high quality dental care within an environment of honesty and trust. She believes that each patient should be made aware of all available treatment options so that they can make the right decision for their personal circumstances. Her goal is to provide dentistry with integrity and compassion to develop the life-long

doctor-patient relationships that are the cornerstone of excellent dental health.

My Best Advice to Patients | Studies show that there is a connection between oral health and overall health. People with gum disease are more likely to suffer from heart disease and strokes, and diseases such as diabetes and osteoporosis can be detected by their effects on oral health. Dr. McIntosh advises patients to regularly visit the dentist as an important part of maintaining their overall health.

Why Choose Me | Dr. McIntosh is deeply honored when patients choose her to be their dentist, and she treats them as family with warmth and respect. She designed her state-of-the-art office with patients in mind—each operatory has relaxing dental chairs, cozy blankets and individually controllable TVs for the comfort of her patients. She uses

ultrasonic scalers for easier teeth cleanings, digital x-rays that emit less radiation, special cameras that show early tooth decay and handpieces that reduce drill vibration. Patients return to see Dr. McIntosh because they know that she carefully listens and provides solutions that truly meet their needs.

Professional Memberships / Licenses |

Dr. McIntosh is a dedicated, active member of the American Dental Association, the Texas Dental Association, the Fort Worth District Dental Society and the Academy of General Dentistry. She is certified to provide Invisalign® treatment, conscious sedation and nitrous oxide sedation. Dr. McIntosh believes deeply in the importance of continuing education and has devoted extensive amounts of time to advance her knowledge and skills to ensure that her patients receive the best in oral healthcare and patient experience.
